Subject: Planiseal VS / Approved Applicator Status

This will confirm that Surface Design Systems is an approved applicator of MAPEI's Planiseal VS Moisture Mitigation System.

As such, Surface Design System's projects are eligible to receive 10-year system warranties when Planiseal VS is used in conjunction with MAPEI's premium underlayments and adhesives.

Surface Design Systems was selected to be part of a select group of applicators in North America qualified to install this "semi-exclusive" product due to their industry knowledge and experience with MVER testing and mitigation. In addition, Surface Design Systems has been successfully installing MAPEI's underlayments and toppings for many years.
